

Capsule Systems

# The Biodegradable Nespresso®\* Compatible Capsule

## The capsule for the eco-conscious aficionado.

For over 30 years we have specialised in developing and manufacturing unique capsules for a wide variety of coffee, tea and instant beverage systems to ensure the optimum consumer experience. With a yearly output amounting to several billions of capsules, we are one of the market leaders in our field. Sustainability is a fundamental principle that we live by. We have therefore focused all of our attention into the development of an eco-friendly solution. The result - a compostable capsule that delivers the ultimate beverage with a minimal environmental cost.
